Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant's representative requested clarification of which reference was being relied upon as teaching the control codes defined respective orders of n bit combinations of binary data. The examiner informed the applicant's representative that as this was not on the agenda for the interview the examiner could not say for sure, but believed that the Lexicon table of De Maine was analogous to the control code and it provided the order of querying for compression/encryption.
